Who We Are

QA agency specialising in manual testing for SaaS.
[QA processes](#) for mobile, web, and custom video platforms

We turn ideas into reliable, scalable products

40%

of SaaS products hit production
with critical bugs.

Transparent approach:

- Detailed reports
- Specific improvements
- Monitoring at every stage

Expert manual QA. Transparent hourly model with detailed reporting and measurable improvements. Strong expertise in video and e-commerce.

Quality

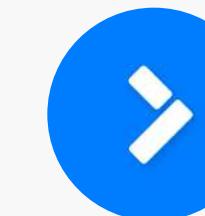

Team Experience

1. We ensured **zero critical bugs** in production releases.
2. We maintained **stable operation** of high-scale video-commerce applications even under peak loads.
3. We know how to test **complex digital products** – stably, quickly, and transparently at every stage!

Work with [Wildberries, Samolët Development, 1221 Systems](#)

- Zero critical bugs in production releases
- Support for high-scale video-commerce products
- Deep experience in complex digital platforms

AI-waiter and QR-menu

Improving the stability of key user scenarios
for the QR-menu with an AI assistant

Mobile app testing (IOS & Android)

Bug retesting and regression

Performance of ordering scenarios

UX-flow testing

Web testing

We'll calculate **to the minute**
when your order will be ready.

Готовим ваш заказ
уже работаем над ним

⌚ примерное время: ~15 минут

The **AI-waiter** will help you
decide on your choice.

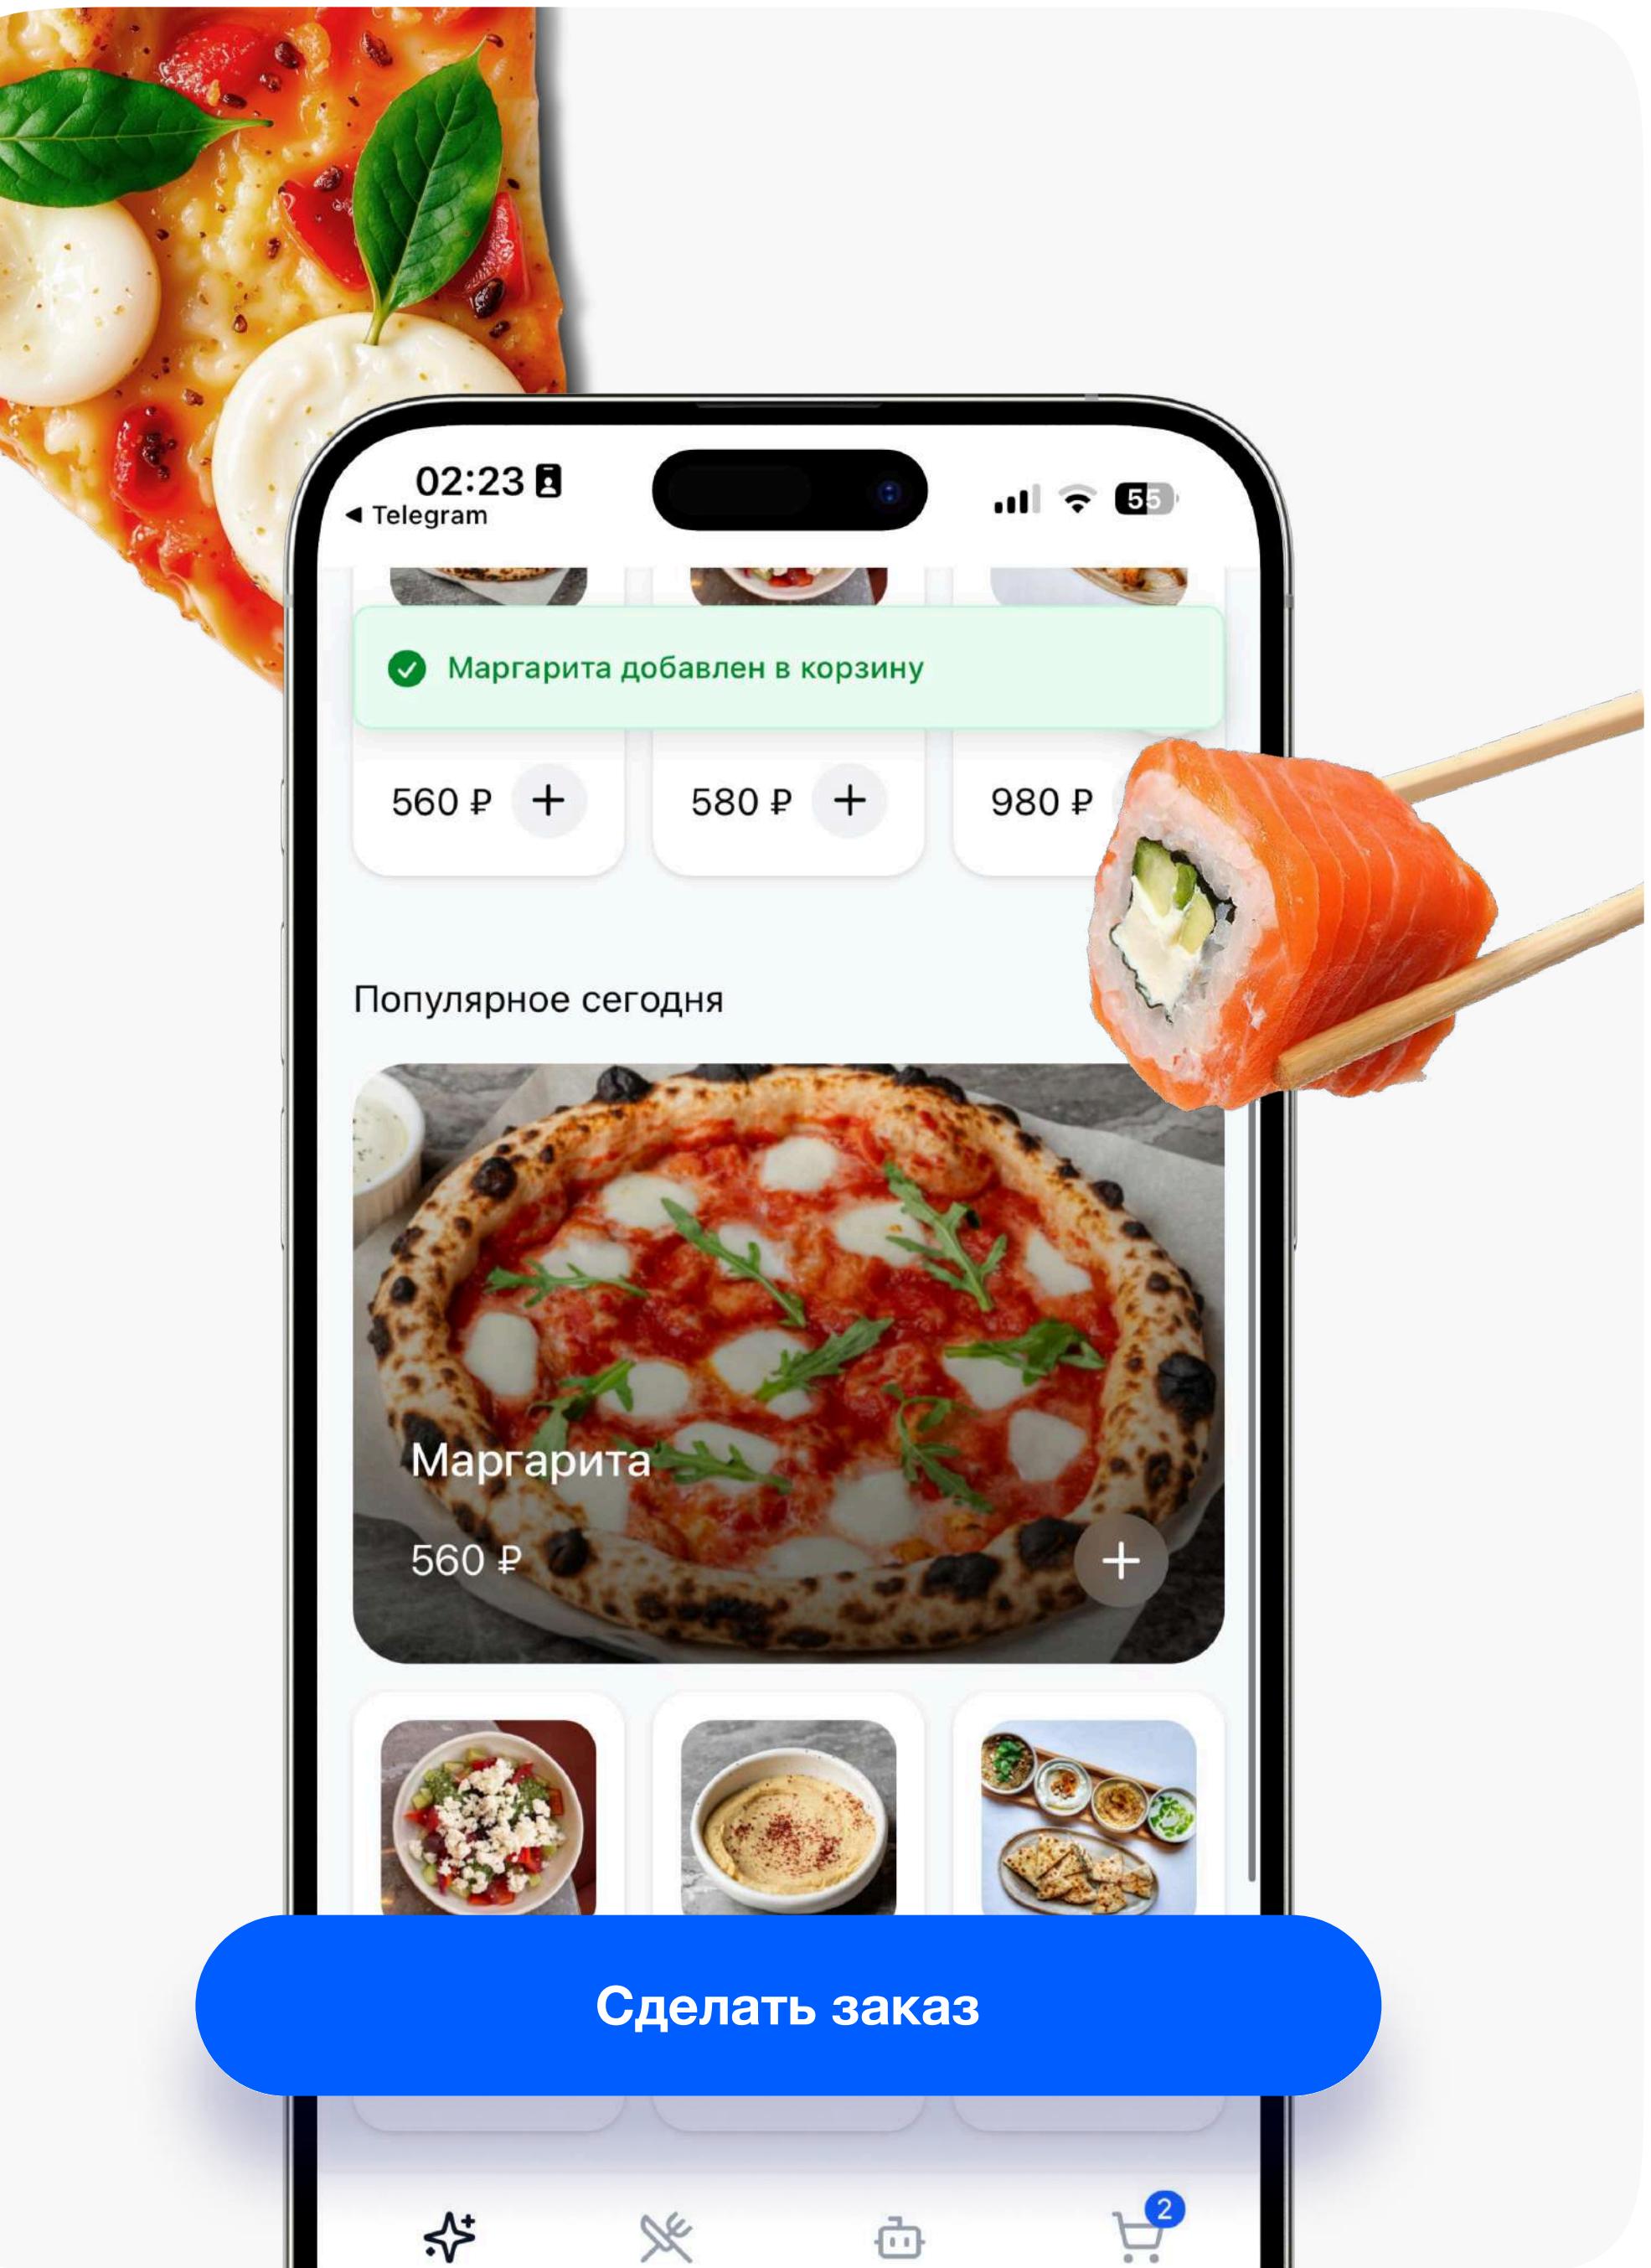

Здравствуйте! Я AI-офицант
ресторана. Могу рассказать о
составе любого блюда, помочь с
выбором с учётом аллергенов или
диетических предпочтений. Чем
могу помочь?

Есть ли вегетарианские блюда?

Вегетарианские блюда: Маргарита,
Греческий, Гуacamоле, Хумус.

AI Telephony

Improving the reliability of integrations and the stability of key scenarios in AI telephony used to handle mass customer requests.

Web testing

API testing

Regression testing

3 simple steps to get started:

1 Register

2 Select telephony

3 Enter your unique token and get started

Nº1

Up to 40% budget savings compared to **in-house hiring**.

Nº2

We work with projects of any scale — from **MVP** to **enterprise**.

Nº3

Long-term partnership and **single point of contact**.

Nº4

Reliable ROI: fewer bugs → higher retention and conversion

What we offer

SIT: testing integrations (API, e-com, moderation)

Regression testing after releases

Development and execution of test cases

Multi-platform testing (web, iOS, Android)

End-to-end scenarios (functionality, usability, basic security)

Mobile features: push notifications, offline mode, UGC

Ready for a QA check?

Free 1-hour QA audit.
